

Mark Todd Stay Cool

Low Sugar and Starch Base Nutrition for Horses or Ponies In Light Work

Keyflow
Redefining Equine Nutrition

Perfect for:

- Horses and ponies in light work
- Leisure and pleasure hacking
- Pony club, games and riding club horses
- Low level competition horses, spelling and maintenance
- Where low starch, comprehensive nutrition is required

Key Points:

- Digestibility greatly enhanced through gentle cooking
- Barefoot Friendly
- Contains Beetroot – a natural, healthy source of fibre and anti-oxidants
- Stabilised Rice Bran – provides calm calories
- Extra Virgin Cold Pressed Rapeseed Oil – a superior Omega 3 source
- Protexin® pro-biotics – for gut health and feed utilisation
- Add simple fibre & Key-3 Oil for a complete low sugar and starch base ration
- Add Key-Plus by the mugful if extra conditioning is required

Partly Steam Extruded

Partly Micronised

Omega 3

Beetroot

Stabilised Rice Bran

Low Sugar

Low Starch

Protexin® Probiotics

Prebiotics

"Stay Cool is brilliant for horses or ponies that are resting or are in light work. They maintain excellent condition, are happy horses to ride and never nery" **Sir Mark Todd**

Mark Todd Stay Cool

Mark Todd Stay Cool is a scientifically formulated, fully balanced, low energy complementary feed for horses and ponies. Using only the highest quality ingredients, Stay Cool is high in fibre and low in sugar. Stabilised Rice Bran provides enough energy without creating fizz or nerves and high levels of Omega 3 Oils ensures all round health and vitality for healthy skin, a shiny coat and general well-being. Stay Cool contains equine specific amino acids and Protexin® for essential gut health and more efficient feed utilisation. This superior digestibility is also achieved through the combined use of advanced feed technologies including wet steam extrusion and micronisation.

Ingredients

Contains micronised grains (including wheat, maize, soya flakes, peas, linseed), beetroot, steam extruded vegetable protein meals and stabilised rice bran, super-fibres, beet shreds, carrot, cold pressed rapeseed oil, vitamins and chelated minerals, biomass & protexin® probiotics.

Daily Feeding Guide

	Bodyweight	
Mark Todd Stay Cool	250-350 Pony	400-600 Horse
Maintenance / Box Rest (Kg/Day)	1 – 1.5 kg	2 – 3 kg
Light Work (Kg/Day)	1.5 – 2 kg	3 – 4 kg
Moderate Work (Kg/Day)	2 – 2.5 kg	4 – 5 kg

Feed together with roughage (hay, chaff, chop, other forage or pasture). Where roughage is fed it should be offered at between 1 to 1.5% of bodyweight daily.

Fresh clean water must be made available at all times.

Daily feeding quantities above are a guide only
