

# Mark Todd Perfect Balance

Concentrated, Economical Nutrition In Its Most Digestible Form

Keyflow  
Redefining Equine Nutrition

## Perfect for:

- Horses and ponies on high fibre diets
- When low starch, low sugar nutrition is required
- Horses on box rest or in light work
- Overweight horses or ponies
- Youngstock and mares in foal
- Barefoot horses or ponies
- When feeding less than recommended levels of other Keyflow feeds

## Key Points:

- Comprehensive, high spec nutrition that delivers outstanding results
- Perfect springtime nutrition
- Max digestibility is achieved through the advanced feed technology wet steam extrusion
- Extremely versatile, can be fed to a wide range of horses and ponies
- Barefoot friendly
- Feed with chaff/chop as a base or feed to complement the rest of the Keyflow range
- Very economical with a low cost per day to feed

Fully Steam Extruded

Omega 3

Low Sugar

Low Starch

Prebiotics

*"Perfect Balance is an excellent option for horses that are on forage based diets, box rest, good doers or those that need a bit extra added to their current feed." Sir Mark Todd*

## Mark Todd Perfect Balance

Using only the highest quality ingredients Perfect Balance is low in sugar & starch and high in Precision Equine Protein to support healthy growth and repair. The superior feed technology wet steam extrusion ensures maximum digestibility and high levels of Omega 3 Oils ensures all round health and vitality for healthy skin, a shiny coat and general well-being.

### Daily Feeding Guide

To be fed in addition to a balanced diet.

	Bodyweight	
Mark Todd	250-350	400-600
Perfect Balance	Pony	Horse

Feed 100gm per 100Kg of bodyweight (Kg/Day) 0.25 - 0.35 kg 0.4 - 0.6 kg

Feed together with roughage (hay, chaff, chop, other forage or pasture). Where roughage is fed it should be offered at between 1 to 1.5% of bodyweight daily.

Fresh clean water must be made available at all times.

Daily feeding quantities above are a guide only
